Please note:

This atlas is a graphical representation of the primary sanitary sewer collection systems found in the immediate Yuma area. Much of the system is owned and operated by the City of Yuma. However, there are areas in which a private company treats raw sewage. Please call (928) 373-4500 during normal business hours for information on which areas are serviced by private sewage treatment facilities.

Expansion of the sanitary sewer collection system is a continuous, ongoing process. New construction may or may not be shown in this issue. Please call for the latest available information.

Thank you for your attention.
