Please note:

This atlas is a graphical representation of the primary storm water collection systems found in the immediate Yuma area. Much of the system is owned and operated by the City of Yuma. However, there are areas in which storm water is handled by other government agencies. Please call (928) 373-4500 during normal business hours for information on which areas are serviced by someone other than the City of Yuma.

Expansion of the storm water collection system is a continuous, ongoing process. New construction may or may not be shown in this issue. Please call for the latest available information.

Thank you for your attention.
