

DUST CONTROL

As specified in City of Yuma ordinance number O2013-14 a plan to control dust on all construction sites is required. At a minimum, the dust control plan shall identify the following.

Address or location of work: _____

Name of contractor: _____ Phone number: _____

Identify all means and equipment that will be used to control dust during excavating and grading work:

1. _____

2. _____

3. _____

Identify any material that will be disposed of off site. Identify the location the materials will be disposed of.

1. _____

2. _____

3. _____

Disposal site:

Address or location: _____

Owners name: _____ Phone _____

We acknowledge and understand that throughout the duration of this project reasonable measures shall be taken to minimize the amount of dust created by the excavating and grading. The above-identified provisions shall be maintained to accomplish this requirement, and contractor shall comply with all local, state, and Federal requirements.
