**NOTE 8 - QUASI-EXTERNAL INTERFUND TRANSACTIONS**

Quasi-external interfund transactions occur between internal service funds and operating funds (internal charges), between and within Enterprise Funds and operating funds (water, wastewater and solid waste charges), and from the General Fund and Enterprise funds (public enterprise in-lieu revenue). Internal service fund revenues that are derived from internal charges to other funds are excludable in the fund recording the revenues. Other internal service fund revenues are only excludable if they are derived from an excludable source. Those other excludable revenues are reported elsewhere. When revenues of an internal services funds exceed expenditures of the fund, the revenues are carried forward to future years for exclusion when the expenditures are made. This is particularly evident in the Equipment Replacement and Insurance Reserve funds where costs are allocated over equipment lives or reserves are built for future risk-related expenses. A recap of excludable revenues of internal service funds follow:
